# APPLICATION GUIDE

## INGREDIENTS

This guide contains all the information you need to **use our ingredients** in your recipes, as well as our technical advice to help you make the most of them. The recommended **dosages** are **only indicative** as they depend on the desired flavour intensity of the finished product.

### INSTRUCTIONS

The technical advice and recommended dosages are tailored to each recipe and each ingredient.

The summary is sorted by the type of recipe.

If a form is not available for an ingredient, this is indicated in the dosage table (dash and grey box).

The booklet presents an example for each category, based on the following criteria:

## MOISTURE CONTENT AND TEMPERATURE

MOISTURE CONTENT		 FREEZING	 FRESH / AMBIANT	 BAKING
<10%		—	Chocolate • Granola	Biscuit
>10% <80%	 	—	Butter	Bakery • Pasta
>80%	  	Ice Cream	Cold infusion • Yogurt • Fesh cheese	Hot infusion

For recipes with similar moisture contents and preparation temperatures, the recommended dosages of our ingredients will be similar.
